

Enforcement Officials Fireworks Training Program

Request for APA Training

The American Pyrotechnics Association (APA) offers comprehensive fireworks training for members of the fire service and enforcement communities. Training will include a review of applicable Federal regulations governing the fireworks industry including ATF, DOT, OSHA, CPSC, as well as NFPA industry consensus standards; along with on-going industry efforts to ensure best safety practices.

The APA program typically covers the three primary segments of the fireworks industry – consumer, display, proximate & indoor – and can be tailored to meet an organization’s specific needs. This training program is a “must” for individuals new to the fire service or enforcement field as well as an excellent continuing education “refresher” course for all veteran public safety officials.

Full day (6 hour) training session cost per group: \$ 1,000 plus travel expenses
(you will receive a complimentary membership)

Please complete and submit the request form below to Executive Director Julie Heckman, Jheckman@americanpyro.com. We try to accommodate as many requests as possible with our limited staff & resources. Please note that APA members are given first priority when scheduling.

Organization/Company: _____
